Full report on Khost operation: more than 100 US invaders killed

KHOST, Jun. 02 – More than 100 US invading terrorists and tens of their puppets were killed and wounded in the martyrdom operation hit Sahrah Bagh airbase in Khost province. According to the details, about 11 martyrdom-seeking heroes of Islamic Emirate, Shamsullah and Azimullah Khan coming from Paktia province, Muhammad Naeem, Atiqullah, Muhammad Yaqoob Ibrahim, Karimullah and Sabeer residents of Ghazni province, Hafiz saifullah from Paktika province, Abdullah from Nangarhar and Abdurrahman from Logar province, stormed Sahra Bagh airfield in capital of Khost province, homes to hundreds of American invading troops.

The team of 11 martyr combatants armored with heavy and small arms and explosives vests in the US military uniforms got into the facility after slamming an explosive-filled truck into the airbase building. Firstly, Shamsullah on Friday at about 1:00 p.m. carried out a martyr attack through a truck packed with 10 tons of explosives roughly 10 thousand kilo grams, targeting the hotels and dining areas and gyms within the base in which dozens of the American cowardly troops were blowing to pieces and eliminated. Soon after this huge and powerful explosion, 10 of 11 martyrdom-seeking Mujahideen entered the base facility and fought with rockets, hand grenades, explosive vests and heavy and light machine guns till 4:00 p.m., killing and wounding several dozens of US invading terrorist troops. At about 5:00 p.m. Mujahideen detonated a motorbike parked outside near the gate of the base at puppets assisting the invaders in which more than 20 Afghan puppet soldiers were killed and wounded, whereas as many as 170 motorcycles were destroyed in the explosion. The operation went on till the evening hours of the day in manner that Mujahideen of the Islamic Emirate took the airbase under attack from both inside by 10 combatants fighting the invading forces inside the base and from outside by other Mujahideen which made the enemy forces unable to use any aerial support. Two attack helicopters and a huge military plane as well as many tanks, fuel tankers, vehicles and fuel depots were set on fire and burned to ash. It was the worst single-day losses for the US invaders and their puppets since the "Operation AL-Farooq" began and the local and western-flounced media's reports on this successful operation are one-sided and based on false propaganda which attempt to understate the most lethal losses inflicted on the enemies, in particular on US invaders and undermine Mujahideen success. On the other hand, locals of the area and the US invaders themselves are well aware of the ground reality which speaks for itself. Reported by Zabihullah Mujahid

Today's successful martyrdom attacks in Kandahar

KANDAHAR, Jun. 19 – Early this morning at around 06:00 am, multiple martyrdom seeking Mujahideen of Islamic Emirate equipped with explosives vests, heavy and light arms entered a joint enemy base in Dand district's old city and opened fire on the enemy inside where so far 40 invaders have been killed and wound 14 others wounded whereas nearly 70 hireling troops have been killed and wounded. 3 captains including Abdul Qudoos are also among the dead. The fighting has lasted for 6 hours now and is still said to be ongoing at the moment. Meanwhile another martyrdom attack by several Mujahideen is also underway since 03:00 am this morning inside an ISAF base, located in Dahli Band area of Shahwalikot district during which dozens of invaders have been killed and wounded. The operation has now reached a phase where the Mujahideen have baracaded themselves inside the base and are engaging the enemy which is outside. These attacks took place one day after an attack inside a check post by 3 Afghan police on the invaders in Sanzari area of Zhiri district in which 5 invaders were killed and 12 others wounded. One of the police officer was later martyred by an IED as all three came out of the check post with seized military equipment whereas the 2 others successfully joined the Mujahideen and gave up the spoils. All these incidents happened at a time when the invaders are falsely boasting of failures of Mujahideen and their own successes however, all praise is due to Allah, these attacks amid operation Al-Farooq once again proved their claims to be nothing but empty rhetoric.

رَبِّهِ

To the Mujahid Muslim people of Baghlan! We pray to Allah before everything else and ask him to recompense the families of the earthquake victims with an immense reward and may He bless them with patience and perseverance in the face of such calamity. May Allah also grant the martyrs of this heart-rending incident with the highest of Paradise (Al-Firdows), the wounded with immediate recovery and all those left behind with that which is better.

To the families of the afflicted and disaster struck from Baghlan province's Barka district!

Your tragedy is our tragedy and your grief is truly ours and the nation's collective grief which has caused us all immeasurable pain. May Allah (SWT) out of his mercy forever protect and immune us from such heartbreaking tragedies and may He bestow us all with patience and perseverance in the face of such catastrophes.

Brothers! That all such incidents take place from the foreordinations of Allah Almighty therefore we are only tasked with forbearance while being hopeful for its reward from Allah Almighty.

In the face of this burdensome disaster, the leader of Islamic Emirate and its leadership council would like to share its deep emotions and empathy with you and we also consider ourselves partners in your common grief.

Declaration of the Islamic Emirate regarding the success of the candidate of the 'Ikhwan-ul-Muslimeen

07 Sya'ban 1433 - 27 June 2012

The election committee of Egypt announced Dr. Muhammad Mursi as president in the ongoing election the previous day. Egypt has a pivotal role in the Middle East and the election of Dr. Muhammad Mursi, the candidate of the Ikhwan-ul-Muslimeen as the president is a great change on the Middle Eastern level and generally on the international level which carry the hopes of positive changes for the Islamic Emirate.

The success of the Islamic Government in Egypt is considered to be the strongest blow in the Middle East and the whole world to the American and Zionist expansionism. May the Muslim Nation of Egypt and their newly elected government take good advantage of this important occasion and historical victory in the defense and achievement of the interests of the Islamic Ummah.

Therefore the Islamic Emirate congratulates the Muslim Nation of the brotherly country Egypt and their elected president Dr. Muhammad Mursi on this glorious occasion and presents its best wishes.

The leadership of the Islamic Emirate prays to Allah Almighty that the newly elected government of Egypt serves its nation in the best possible way and on the whole successfully and legitimately defends the Islamic issues on the Muslim world level.

The Islamic Emirate appreciates all those supports rendered to the Afghans by the brotherly country of Egypt during the Russian occupation and similarly thanks from the core of heart the International Al-Azhar University for all those stances condemning the current occupation of the Americans and their atrocities.

Wassalam,

The Islamic Emirate of Afghanistan.

Remarks of Islamic Emirate regarding the statement of Pakistani ambassador in Kabul

08 Sya'ban 1433 - 28 June 2012

On Tuesday the 26/06/2012, some media outlets published excerpts from the interview of Pakistani ambassador in Kabul, Mr. Muhammad Saddiq, which he conducted with Reuters News Agency. The said person remarked in his interview that Pakistan gave permission to the Taliban to go to Qatar. We would like to once categorically state that the representatives of Islamic Emirate did not go to Qatar with the permission of Pakistan and maybe the mentioned ambassador does not have information regarding this matter.

The Islamic Emirate is completely free and independent in all of its affairs. It makes decisions of its own likings in all matters and affairs in light of Islamic principles and national interests. The preliminary and confidence-building talks done by the representatives of Islamic Emirate with those of United States of America in Qatar were initiated and then halted under the order of its leader.

The Islamic Emirate urges all related parties to make truthful comments regarding concerned affairs.

Statement of Islamic Emirate regarding the participation of its representative in academic conference in Japan

09 Sya'ban 1433 - 29 June 2012

An academic conference, in which the issue of Afghanistan would also be discussed was being planned in Doshisha university, Koyoto, Japan on the 25th June 2012 and hence it sent an invitation to the Islamic Emirate. The Islamic Emirate sent its representative to this conference only and only so it can clarify its stance to the world regarding the affair of Afghanistan. Some faces and media outlets have distorted the meaning of this trip of Islamic Emirate and have said that the

representative of Islamic Emirate has begun formal negotiations with the peace council representatives of the stooge Kabul regime and have agreed upon creating a joint commission. Other media outlets have added that the representatives of Islamic Emirate have also made a similar trip to France and have negotiated about peace.

We must make it very clear that dispatching a representative to Japan was not for meeting with someone or talking about peace and neither have there been any discussions or agreements made about setting up a joint commission for future peace talks. On the other hand, the Islamic Emirate has never sent a delegation or a representative or a message to France and neither is the Japan matter connected to the conference in France.

The Islamic Emirate has repeatedly stated that the Afghan problem has two sides. As long as the matter with America (talks which are currently suspended) is not addressed, talking with the administration of Karzai is pointless.

The baseless and malicious news spread by some self-interested persons and media outlets are only their own views and have nothing to do with the realities.

Islamic Emirate of Afghanistan.

What really happened in Shahrabagh

18 Rajab 1433 - 08 June 2012

On the 11th of the ongoing Rajab month, 1433, a successful operation was carried out by Mujahideen of Islamic Emirate on the huge military installation of American forces (Shahrabagh airbase) in Khost province which caused the foreigners and their local stooges heavy losses.

Although the coordinated group attack on Shahrabagh was a small sample of Al-Farooq spring campaign, the enemy still censored the ground realities in accordance with their military tactics and prohibited all large and small news agencies from leaking the details of incurred losses.

A few Khost based journalists said in personal based correspondence that they themselves witnessed the limbs and body parts of American soldiers scattered around the base however they are unable to publish their reports due to the restrictions placed on them by the foreign and internal officials. You might already know of what occurred by having read the initial reports of the operation on Al-Emara website however we will try to shed light and provide further details about this historical falsehood shattering attack in this report which has been assembled based purely on the accounts provided by one of the organizers and guide of this thunderous operation.

Framework for the operation

Shahrabagh airbase, which is the third largest American operational base in Afghanistan after Bagram and Kandahar is located in the east of Khost city and is said to house nearly ten thousand troops at any given time. The Americans have built an airfield, training facilities and intelligence quarters inside and due to its operational importance; it is maintained under tight security and is surrounded by several protective barriers and spying equipment.

As this base is an important and strategic facility of the enemy therefore the Mujahideen had also constantly planned an operation on it. Although this base had been hit with missile and martyrdom attacks previously, the Mujahideen strived hard this time around in order to hand out a heavy and an effective blow by utilizing new tactics.

The Mujahideen gathered intelligence and established that the dining hall and housing areas (tents and wooden structures) of American troops are located in the south of Shahrabagh base and that the parking area of airplanes is also nearby. It was also established that Kajir village lies to the south in the same proximity and it has a minor hidden road which leads out and passes next to the base at about 50 meters. After more intensive intelligence gathering, it was realized that if a powerful explosion was to occur at 01:00 pm local time near the wall, then the American soldiers who gather in the wooden halls and tents for lunch would suffer a heavy toll.

From then on operational plans were drawn. In order to eliminate that facilities and the American troops inside, a vehicle packed with some 8 tons of Potassium Chloride, 2 tones of TNT, 20 bundles of detonation cord and several anti-tank mines, which rounds out at roughly 10 tones would be used. The technicians of Islamic Emirate, in order to avoid causing fatalities to the people of Kanjir village, build this vehicle bound explosives device in such a manner that the force of the blast directs itself straight towards the base and not in random directions.

Similarly, 10 trained martyrdom seekers would be used in the operation. Two armed with RPGs with 15 rounds each, 1 pistol and hand grenades; two with PK automatic machine guns with 1500 anti-armor rounds, 1 pistol and hand grenades while the 6 others were each armed with AK rifles equipped with grenade launchers with 20 rounds, 11 magazines and a dozen hand grenades. This group was tasked with entering the base and opening fire on the confused American soldiers after the explosion. In order for this group to safely reach their targets, each one was dressed in American military uniforms and were given breathing masks and goggles so the dust from the explosion does not have a negative effect them.

Some thousand other internal puppets also work in the base as translators, guards, laborers and spies. They are marched towards the western gate of the base and kept under surveillance in case of any such incidents. There is also a staff parking area in the same area which is packed with hundreds of cars and motorbikes each morning and then vacated in the later afternoon time. The Mujahideen of Islamic Emirate, in order to dish out a heavy blow to these puppet Afghans also packed a motorbike with heavy duty RDX explosives and handed it over to their sources inside who were tasked with parking it in the area on operation day and which would be later detonated with a remote or a timer.

In order to make the operation even more effective, Mujahideen surrounded the base from three directions with 3 BM12 missiles each which would be also be fired at the base on operation day.

Operation day

All the arrangements for the operation had been finalized on the 11th of Rajab, 1433 and this day was chosen for the attack. In the initial hours of the day, severe patrols and searches were taking place near the American base which put the launch of the attack in uncertainty so the Mujahideen turned towards Allah (SWT) and extensively prayed so that the operation is not hindered. It was the bounty of Allah Almighty that as the day progressed and the time for the attack neared (01:00 pm local time), the searches and patrols of the enemy decreased to the extent that at the time of the launch of operation, all the American troops and their tanks left the surrounding areas and entered the base.

Mawlawi Sahib Shamsullah, a resident of Paktia and tasked with the VBIED sacrificed his luxurious life in Khaleej, a thriving business, bounties of the

world and the love of his 4 children for Allah. The said person, who was familiar with the surrounding area, drove his explosive packed vehicle with absolute assurance right up to the American base and detonated it at the appropriate time. This blast was not an ordinary blast. The nearly ten ton explosion completely flattened the enemy facilities in which the American invaders were feeding, set several areas on fire and completely destroyed a transport airplane which had parked nearby only a few moments before the blast.

Simultaneously after the blast, the ten armed martyrdom seekers (Azeem Khan from Paktia; Ateequllah, Muhammad Naeem, Muhammad Ya'qub, Ibraheemi and Kareemullah from Ghazni province's Gilan district; Zabihullah Shabir from Ghazni's Maqur district; Hafiz Saifullah from Paktika's Khushamand; Amdadullah from Paktika's Wazikhsa; Abdullah from Nangarhar and Abdur Raheem from Logar) who had arrived at the scene in a mini van, set fire to their vehicle and zealously entered the American base. Video footage from the scene shows that the enemy is in complete disarray after suffering heavy losses from the blast. Even though enemy helicopters are hovering overhead, no rounds are shot at the the Mujahideen as they enter inside up until the Mujahideen themselves engage the enemy with heavy and light arms after reaching their targets.

The enemy soldiers lose all their senses as the onslaught commences due to Mujahideen being disguised in American military uniforms. Amid the confusion, the enemy answers the precise targeted attacks of the Mujahideen with random blind fire while their helicopters which are hovering overhead also fail in identifying their targets. After a long while, the enemy announces that the attackers are dressed in US military uniforms and orders its troops to restrict their movements and proceed with caution. Meanwhile the Mujahideen intercept the radio communication of the officials of Kabul intelligence agency which warns all of the hiring troops in Khost to stop all military actions until further notice because their so called 'foreign friends' have announced that there is a major Taliban attack underway and they are unable to tell friends from foe.

In this way, the attack commences from 01:00 pm inside the base up until 04:00 pm during which time 4 Mujahideen embrace martyrdom while the rest buy time for a secondary assault. After this the Americans announce the end of the operation, a claim which would be proven wrong when the other Mujahideen once again engage the enemy at around dusk time until 11:00 pm at night.

Heavy missiles also rain down on the base during the attack while on the other hand, the explosive laden motorbike is detonated at the western gate at around 05:00 pm which either completely destroys or badly damages the nearly 180 motorbikes and vehicles and also leaves around 20 hirelings dead.

It is said that hundreds of American soldiers are killed in the operation. Nearly 400 troops were said to have assembled in the two halls for lunch which were completely flattened by the initial powerful explosion while several other facilities were also severely damaged. According to witnesses, several helicopters made 18 trips from the scene ferrying away the casualties to Bagram airbase even though a huge sprawling medical facility also exists inside the same base.

Due to the sensitive timing of the attack which occurred as Obama is running his campaign in a bid for re-election and while the world media is talking about the dissolution of the strength of the Taliban, therefore the enemy tried its best to keep a lid on the realities and keep them away from the public view. But if we look at the reality, we can see that they can control the information flow however the nature of the attack which has already taken place cannot be altered. The American troops which were killed are now dead and they can never be brought back to life with misleading propaganda.

Successful Kandahar operations and Jacobson's baseless claims

29 Rajab 1433 - 19 June 2012 18:33

Tens of foreign and internal enemy troops killed and wounded in today's attacks

Early this morning (19/06/2012) as part of spring Al-Farooq campaign, martyrdom seekers of Islamic Emirate launched attacks on two enemy bases in Kandahar province which left tens of foreign troops and their internal hirelings dead and wounded.

The first attack took place at around 03:00 am local time in Shahwalikot district on a NATO base in Dahli Band area when 6 martyrdom seekers (one group comprised of Hafiz Ismail, Abdul Bar and lead by Ahmad Khalil and another group comprised Atta ur Rahman, Wali ullah and lead by Yousuf; all residents of Kandahar) armed with AKs, PKs, RPGs, hand grenades and explosives vests stormed inside and easily reached the enemy residential barracks where they opened fire on the shocked and unprepared enemy with small arms from a very close range. According to received reports, the Mujahideen took over the base after 3 hours, set fire to the enemy barracks and equipment and carried on fighting for 5 more hours after which all the Mujahideen embraced martyrdom and at the same time killed 30 foreign invaders, wounded 14 others and similarly destroyed 12 military vehicles and 8 fuel tankers with heavy arms fire.

The second attack also took place in the morning but at around 06:00 am when 4 courageous martyrdom seekers (Jannati and Arab from Ghor province and Mukhlis and Ismatullah from Kandahar) stormed a joint enemy base, located in Dand district's Zarha Shar area near Kandahar city. After passing the enemy safety barriers, the undaunted heroes turned their weapons on the dismayed enemy troops inside, killing and wounding dozens of invaders and their puppets.

According to the report published in Alemarah website citing Qari Yousuf Ahmadi, the spokesman of Islamic Emirate, the fierce resistance lasted till around 01:00 pm when all the Mujahideen embraced martyrdom. The report further pointed out that due to heavy and light arms used in the operation, some 57 foreign invaders were killed and wounded while the Kandak commander (Abdul Qudoos) and 2 other captains were killed as well as 80 other hirelings killed and wounded. It is said that several enemy military vehicles were also destroyed and damaged in the assault as well as the base sustaining severe damages.

The foreign and the local internal enemy spokesmen failed to issue identical statements regarding the losses caused in both of the attacks. The spokesman for ISAF in Kabul confirmed the incidents but remained close lipped about the losses caused as per their policy. Meanwhile the stooge spokesman for Kandahar province (Javid Faisal) told news outlets that the attack near Kandahar hit a police station and was carried out by 4 gunmen which lasted for only 20 minutes. According to the said person, there were no foreign casualties in the incident and only 3 police had been killed while 7 others were wounded, adding that there were also no casualties in the attack in Shahwalikot district. This claim was made at a time when the district governor of Shahwalikot (Samoonmal Bacha) told reporters that he himself witnessed 10 wounded foreign soldiers being taken away for treatment.

Such contradictory statements by the enemy officials clearly show that the enemy has suffered heavy human and material losses in both of the operations.

Today's successful attacks and Jacobson's baseless claims

Today's successful martyrdom attacks in Kandahar amid operation Al-Farooq happened at a time when the NATO spokesman, Christian Jacobson, made baseless claims yesterday and said: The Al-Farooq spring offensive of Taliban is a failure and added that NATO has made incredible progress.

However if we look at the ground realities, they are completely opposite. Tens of small, large and roadside bomb attacks take place against the bases and convoys of foreign troops and their hirelings.

After the announcement of Al-Farooq spring operation by Islamic Emirate on the 3rd of May of the current year, more than fifty small and large attacks take place against the enemy throughout the country on a daily basis. About one month and sixteen days after the announcement, more than 2300 attacks have taken place, causing the enemy losses in each one.

With such immense figures for the operation in such a short period of time, we can clearly state that the spring campaign is mainly successful and Jacobson's claims completely false.

The occupying enemy has always tried to hide its failures and defeats and has coerced many journalists and media outlets into towing the same official line. A great example which can be forwarded is that of the attack on Sahra Bagh airbase which was carried out by II Mujahideen of Islamic Emirate two weeks earlier in which dozens of enemy troops were killed and wounded. The foreign enemy initially refused to admit even the death of one soldier and neither did it let news outlets leak any secrets. Two weeks later, their own General admitted that more than 137 soldiers were killed and wounded in the attack on Salerno military base.

Uruzgan – the land of ingrained Jihadi passion

24 Rajab 1433 - 14 June 2012

Uruzgan is from amongst the central provinces of Afghanistan which shares borders with Kandahar, Helmand, Daikondi, Zabul and Ghazni. It has an area of approximately 22692 square kilometers and is home of nearly four hundred thousand (400,000) people. It is mostly a mountainous region and its people mainly poor like the rest of the population of Afghanistan.

A large chunk of Uruzgan was split back in 2004 and turned into an independent province (Daikondi) so therefore it is now made up of 5 districts namely Khas Uruzgan, Dahrawod, Chora, Char China and Chinartu with a provincial capital named Tarinkot city which is commonly referred to as 'Terai' in the local dialect.

Uruzgan province is an important Jihadi region of the Mujahideen in terms of Jihadi operations against the Americans just as it served an impregnable front against the Soviets, causing them immense losses. From the day the head of the stooge Kabul regime, Hamid Karzai was propped up by the intelligence forces of America in Dahrawod district and began their armed actions against the Islamic Emirate until today, Jihad has been successfully forging ahead in Uruzgan province and has picked up steam and cohesiveness with the passing of each year.

Even at this very moment, the Jihadi structures of Islamic Emirate are actively engaged in their duties in Uruzgan provincial capital as well as in all its districts. Darwaishaan, Sarmarghab and Marabad wide regions of the capital Tarinkot are important areas under the influence of Mujahideen where the enemy forces are regularly targeted with explosives, missiles and ambushes. Besides this, the Mujahideen also carry out various other guerilla attacks inside the city center including general large scale operations, martyrdom operations as well as targeted killings which has resulted in the elimination key enemy figures. In the past two months a famous contractor working for the Americans Daar Ahmadullah, intelligence officer Hashim Khan, former senator Khairullah Khan, enemy commander Tor Jan and other government officials have also been taken out in the various operations. Dahrawod district is the only region of Uruzgan where the enemy exercises some form of power and which is not under the full control of Mujahideen. Other district like Chora, Khas Uruzgan and Char Chino are under the complete control of Mujahideen except the district centers and some roads. Since the enemy has failed in the past decade to extend its power beyond provincial capitals despite repeatedly using all its might therefore it is expending in energies in creating 'Arbakis' (militias) in the rural areas to confront Mujahideen. Just as in most of the other parts of Afghanistan, this program of the enemy has also faltered miserably in Uruzgan province. These same Arbarkis which were created in some areas with great expenditures are now defecting to the Mujahideen and are surrendering all their weapons and provisions.

The spokesperson of Mujahideen in Uruzgan province (Muhammad Asif) states that the Jihadi condition in the province is very reassuring. Only referring to the month of March, he says (I want to make a mention of the month of March in terms of Jihadi operation as an example even though that particular month is quite cold weather wise however the enemy was still targeted quite a lot and was not given any respite. 35 large and small scale attacks were launched against the enemy in that month which resulted in the death of 56 internal and 18 foreign troops while 25 others were wounded. 15 various types of enemy military hardware was also taken out whereas the enemy was forced to vacated 5 check posts while 1 was completely uprooted by the Mujahideen. 14 Arbakis also surrendered themselves and their weapons to the Mujahideen in the period and an enemy unmanned air vehicle was also shot down with a sniper rifle).

The above stated figures clearly show that the prevailing situation in Uruzgan is actually favoring Mujahideen and is quite opposite to what the enemy propaganda tries to portray. Since Uruzgan is a mountainous province hence its people have a natural inclination towards religion and Jihad despite the enemy putting its best efforts and focus on trying to avert the peoples Jihadi will through propaganda. In reality, it is this ingrained Jihadi passion of the people of Uruzgan and their love for the Mujahideen that is guaranteeing the durability and strengthening of Jihadi operations in this province.

INTERVIEW

Badghis – From empty-handed origins towards imminent triumph

21 Rajab 1433 - 11 June 2012

An interview with Badghis provincial Jihadi chief, Mawlawi Abdul Qudoos

Mawlawi Abdul Qudoose is a 28 year old from Badghis province's Maqur district. He received his education in the various Madrassas of Afghanistan and Pakistan and has fulfilled his sacred Jihadi duties in Afghanistan's various fronts. Mawlawi Abdul Qudoos is from amongst the very close associates of the founder of Jihad against the Americans in Badghis province, Shaheed Mawlawi Dastageer. He is counted from the ones who began their sacred empty-handed Jihad against the American invasion in Badghis in very early challenging stages. He was handed the leadership of Daraboom district of Badghis province during his Jihadi duty and is currently serving as the chief of explosives development and martyrdom operations in the whole province. Here we would like to present to our readers an interview which was conducted with the said honorable person regarding the Jihadi situation in Badghis province.

Al-Emara: Dear honorable Mawlawi Sahib, before everything else, can you give us information about the rise of Jihad in Badghis province? How and when did the Jihadi movement begin?

Answer: د لاری روس وله وینځلې لږمه ده

To answer your question I must mention that when America began its invasion of Afghanistan, the Taliban lost their control over most of the northern provinces. So as in the rest of the country, gunmen and warlords also once again established their presence in Badghis and began terrorizing and persecuting its believing and Mujahid people. Just to mention what I have seen for myself, some 200 to 300 gunmen used to raid local villages and loot the homes of anyone thought to have links with the Mujahideen or Taliban while rigorously focusing on finding weapons and ammunitions. It would not be an exaggeration to say that in the early years of the invasion, no heavy or light arms were left for the Mujahideen to use against the occupiers. It was due to these harsh conditions why combat against the Americans in Badghis got delayed even though the people held a great zeal for Jihad but due to lack of weapons, no operations took place.

In the year 2007, myself and the former head of Jihad in Badghis, Shaheed Mawlawi Dastageer were studying in Helmand where we also took part in operations. Until that time, no Jihadi operations had taken place in Badghis. Abdur Rahman Haqqani had recently been appointed as the governor of Badghis by the Islamic Emirate, so with his consultation, me and Mawlawi Dastageer headed from south towards Badghis with the intention of Jihad. We were so empty-handed that by the time we reached the halfway point, all our money was spent. We decided to begin our work after reaching Bala Marghab district. We initially reached out to an old Jihadi commander in Bala Marghab's Paneerak village to furnish us with weapons and may Allah reward him, he gave us two Kalashnikovs and then Mawlawi Baaz Muhammad Sahib from Ghortu village handed us an RPG. We found some more Mujahideen with the passing of time and began Jihad in the same valley with the stated weapons. After our numbers reached 12, we firstly hit the convoy of security guards of an NGO, the next night we attacked Bala Marghab district headquarters and various other check posts later. We operated at night in the initial stages but then gradually started working during the day after acquiring war booty. Our numbers increased even more and weapons became sufficient. We established our Jihadi base in a mountainous area called Houz Kabod, located near Bala Marghab and as rumors spread throughout Badghis that Mujahideen have become active, people with Jihadi zeal from all districts came to this very place in order to participate. In this order our numbers increased and operations extended towards other districts like Maqur, Daraboom etc and large swaths of lands fell to our hands. Shaheed Mawlawi Dastageer was our military chief at that time. That is how Jihad in Badghis began and two years later, Mawlawi Dastageer was captured in Herat province and was imprisoned for six months. After being released, an important incident took place under his leadership in Bala Marghab's Aka Zo area where large amounts of booty were seized. On 07/09/1387, a 45 vehicle enemy convoy was hit, half the vehicles destroyed and half seized while many enemy soldiers were also captured alive and a huge amount of arms were seized which are still being used today. Tens of light arms, mortars, 82mm recoilless rifles, D-SCH-K heavy machine guns, PK machine guns and other various weapons were seized. After this, Jihad picked up incredible pace throughout Badghis and then a time came when 80% of its soil was cleansed from enemy presence. The pace of the ongoing Jihad in Badghis, if we look at the realities, is due to the blessings and sacrifices of those same sincere Mujahideen who took on the leadership roles and never wavered in their stance despite facing those harsh and testing conditions. Among those Jihadi commanders worth mentioning are; Mawlawi Dastageer Sahib, Mawlawi Ismael, Ma'win Baaz Muhammad, Jamaluddin Mansoor, Abdur Rahman Akhondzada, Mawlawi Sayed Hakim, Mullah Amar Deen, Mullah Fazal Deen, Mawlawi Abdur Raziq, Sayed Ali Shah Agha, Mullah Soz Gul and some others.

Al-Emara: Thanks honorable Mawlawi Sahib for providing heart-felt information about the past few years Jihad. Now can you shed some light on the current Jihadi situation in Badghis province?

Answer: All praise is due to Allah, as you may already know that the Jihadi operations of Mujahideen of Islamic Emirate in Badghis are proceeding with great strength at the moment. The majority of its people are either physically or de facto Mujahideen. Locals who are fed up with the persecution of the invaders and armed gangs see this sacred armed Jihad as the only way of salvation. With the blessings of Jihad, most of Badghis has been cleansed from the enemy presence. Mujahideen are physically present in Bala Marghab, Ghormach, Aab Kamrak, Sang-e-Atish, Maqur, Qadis, Jund,

Daraboom and all the other districts. The enemy presence in most of the districts is only limited to their bases. If we look census wise, there are 1050 armed Mujahideen in the fronts of Bala Marghab at the moment, 500 in Ghormach and 419 in Daraboom. Similarly, we have a number of other Mujahideen in the other districts according to its needs while we can also count on the entire population of Badghis to stand next to Mujahideen in times of need. The only place in Badghis lacking Jihadi operations is the provincial capital, Qala Naw. The enemy also tried to arm local militia however due to not receiving any backing from the people, this plan has miserably faltered.

Al-Emara: In the northern and north western provinces of Afghanistan, the enemy often claims that they have decimated the fighting capability of Mujahideen in last year's operations and in the 'Arbaki' program. How much of this claim is true in Badghis province?

Answer: It is very true that the enemy carried out operations in Badghis just like the other northern provinces and have activated the 'Arbaki' program but due to not receiving any popular support from the people, these programs have come to naught. Mujahideen may have vacated some areas in the face of large scale air and ground operations of the enemy but due to the nature of guerilla warfare, this is called a tactical retreat however the Mujahideen again established their presence in those same areas and forced the enemy out while handing them heavy losses.

I will forward the mountainous range of Nakhcharistan in Daraboom district, which connects to several other districts as an example. The enemy carried out a huge air and ground campaign in the area a while back during which they built 6 check posts and entrenched in them nearly 200 troops and local police (Arbaki/militia). After some time when the operation ended, nearly 300 Mujahideen participated in their own offensive in which all 6 check posts were uprooted. Some enemy troops were killed, some fled while others were airlifted by helicopters. This area is now completely free from enemy presence. The enemy similarly built check posts in other rural areas however they are now finding it difficult to provide it with logistics while many are being abandoned as their daily losses increase. Many people who had joined the enemy as part of the 'Arbaki' program are now defecting to the Mujahideen with their weapons. Besides the occasional personal surrender, many 'Arbakis' have surrendered with their entire groups. As an example, a group of 50 'Arbakis' surrendered themselves to the Mujahideen in the early days of Jamadi ul Awal in Qadis district. Such incidents demonstrate that all the enemy efforts have been wasted. They have nothing to show in the military field and have only their radio propaganda to fall back on through which they want to give confidence to their moral lacking troops.

Al-Emara: Respected Mawlawi Sahib, can you share with us a memorable or an interesting story about Mujahideen activities in Badghis province?

Answer: The Mujahideen in Badghis, just like the rest of Mujahideen in Afghanistan, have presented extraordinary sacrifices in its few years Jihad, performed heroic deeds and have carved out relics of courage and valor however its is very bemoaning that such incidents of the Mujahideen of Islamic Emirate have gone unnoticed and have not been written down. I strongly believe that if the great deeds of Mujahideen from all over Afghanistan were to be collected, it would fill a whole chapter in Islamic history. The incident I want to recall is about the bravery and Jihadi fervor of a 12 year old Afghan. A while back in Daraboom district of Badghis, Americans carried out an operation in Kabulchi village. As they approached a mosque of Mawlawi Pir Muhammad Sahib, who teaches a couple of young students, a 12 year old talib with exceptional zeal and love for Jihad takes the opportunity and waits in an ambush at the door with a sickle. When the Americans enter, the boy attacks one and cuts a deep wound in his face before being apprehended. Since this boy was of a young age, the local elders interfere and got him released. There are many other evoking stories however this one serves as a good example.

Al-Emara: As for the last question I want to ask a general question. On the 2nd of May of the current year, the Kabul administration and the Americans signed a strategic agreement regarding which many discussions are still taking place. How do you view this subject from the point of view of a Mujahid from Badghis province?

Answer: After the strategic pact was signed between Obama and Karzai on the 2nd of May, 3 days later on the 5th, Americans carried out airstrikes on the tents of nomads in Mangam area of Marghab district in which 14 innocent civilians including women and children were martyred while 6 others were wounded. For me personally and for the rest of Mujahideen of Badghis, this was regarded as the first accomplishment of Karzai. After signing the agreement, Karzai claimed that the presence of foreigners in Afghanistan is now legal. This statement makes clear that the aforementioned person believes that the remorseless murder of innocent civilians in Badghis is also legal. I think that this pact has no practical meaning because the Americans had even before entered forcefully, they had complete control every matter and Karzai was only their hireling stooge and matters will still remain the same as long as the Americans are present on this soil. However the only thing achieved by signing this pact was that the puppets in Kabul exposed their true faces to the people of Afghanistan and showed their lowliness to the extent that they are even willing to bargain on Afghanistan under the disguise of strategic agreement.

I believe that the Afghan people are a Mujahid, religious and freedom loving nation. The Jihadi sentiments are alive amongst them and they have the potential of taking back their sovereignty from America. Karzai can never be considered the representative of the proud Mujahid Afghan people therefore the signing of this agreement was a deal between a master and his slave which is not something worth deliberating for the Afghans.

The valuable services of the Red Cross in reducing the sufferings of Afghans

19 Rajab 1433 - 09 June 2012

The international committee of Red Cross (ICRC) is one of the well known organizations working in our area for the last sixty years. Especially during the Soviet invasion it had rendered valuable services to the Afghans by providing treatment to the wounded ones. For this purpose it had specific hospitals in Peshawar and Quetta where

it used to admit the wounded persons of all the Jihadist groups or send them abroad. Presently the ICRC is providing valuable services by delivering letters to the prisoners and informing the families about their health condition, which is really a humanitarian service.

The Islamic Emirate of Afghanistan supports as per its policy each and every NGO which is useful for the ordinary Afghan and does not support the foreign invasion. Similarly the IEA tries its best to facilitate them according to possibilities and condemns the torture and killing of its worker inside the country as well as abroad; because it is an impartial organization and works throughout the world for the needy, helpless and oppressed people.

We would to draw the attention of the ICRC to all the prisoners related to the IEA and being tortured in jails, known or underground, by the puppet regime of Kabul and the Americans as well. They are treated in a biased and discriminate manner. The barbaric techniques common in the communist regime in Afghanistan are used once again to torture the prisoners. This is not a mere claim but the reports of the impartial human rights organization testify it and the media have published it.

Moreover the Americans have set up secret cells in all of their bases where they torture the prisoners and the news does not come out. We ask the ICRC to investigate the hidden jails in the American bases beside Bagram and Qandahar bases. The ICRC should put pressure on the invading forces to refrain from the torture and humiliation of the prisoners. Similarly it is well known that for the last decade the Afghans are living in Guantanamo and other jails inside Afghanistan under the control of Americans as well the puppet regime of Kabul without any trial and official indictment. We ask the ICRC to accelerate its efforts for their release according to its policy because the arrest and detention of these people is itself a violation of the international human rights and is a brand of infamy for the civilized humanity.

The American wants to involve other countries just to flee but ...

25 Rajab 1433 - 15 June 2012 04:10

The whole world knows that after the announcement of the 'Alfarooq' jihadi operation on 2nd May 2012, Mujahedeen have changed their military tactics. They started brave offensive operations. They made the ground as warm as oven for the invaders and their puppet militias. They made them so confused that now they cannot find the exit.

The astonishing thing is the defense secretary of United States Mr. Leon Panetta who has also worked as the head of the C.I.A. gives contradictory statements and his acts are not lucid. On 28th May he said to IBC television in an interview that we will have permanent presence in Afghanistan and we not go anywhere from Afghanistan. But a day earlier in the same month he said to the Washington Post newspaper that we not have permanent presence in Afghanistan after 2012.

In the first week of the current month June the defense secretary of America went on a tour of the Pacific region and Vietnam and India were his main stations. America wants to send her military ships to the Pacific region to destabilize the regional peace because the American history has proved that it seeks its benefits in others loss.

The interesting thing is that the defense secretary for the first time visited the army base which was their military centre during the Vietnam War to find some clues of the 1200 missing troops. The reason of the search of the missing persons after 40 years is also Afghanistan as they have pushed the American nation into another tragedy because of their obstinacy and irrational politics.

The above mentioned notorious secretary arrived on 5th June to New Delhi with the hope the host country will welcome their demand to come to Afghanistan because we have now tamed the war. But as it is said they tried to deceive even a cleverer one; because the Indian people and their authorities are observing this illicit war for the last 12 years and they are aware of the Afghan nation and their demands.

Although full details of negotiations have not come out to the press but it seems that the host's answer was negative. The forth mentioned secretary moved empty handed towards Kabul without gaining any success or progress in his efforts. He spent 3 days in India to transfer the heavy burden to their shoulders, to find an exit and to flee from Afghanistan. Some reliable media sources said that the Indian authorities did not pay heed to demands and showed their reservations, because the Indians know or they should know that the Americans are grinding their own axe. It (the U.S.) has very long history and experience in changing its loyalties. They (the Americans) always chase their vested interests and have never cared for others interests nor for their miseries.

No doubt that India is a significant country in the region, but is also worth mentioning that they have full information about Afghanistan because they know each other very well in the long history. They are aware of the Afghans' aspirations, creeds and love for freedom. It is totally illogical they should plunge their nation into a calamity just for the American pleasure.

The Islamic Emirate has repeated announced in its statements and declarations that we want to have cordial relations on the basis of sovereignty, equality, mutual respect and no interference in each other's internal affairs. We have made it clear that no one would be allowed to use the Afghan soil for anyone's detriment.

The Islamic Emirate insists that the solution of the Afghan issue lies in the withdrawal of the external forces and to leave the sovereignty of Afghanistan for Afghans themselves.

The crucial responsibility of the nation towards the chaste Afghan women

30 Rajab 1433 - 20 June 2012

Women are held in very high regard in the Afghan society and family life. Not only are they compassionate mothers, beloved sisters, free-willed wives, treasured daughters but are also considered the tribes honor and the nations dignity because it is these women who breastfeed their children by reciting 'Bismillah' (In the name of Allah) and teach them about protecting their religion, honor and country in the cradle. It is women who expound Jihad, zeal and sacrifice for the defense of Islam and it is women who indoctrinate young men with creed and present them for service to their religion, nation and country.

The honorable status of women in Afghan society in reality gets its origins from Islam. In the time of ignorance, women didn't even have the right to live; they were buried alive or were distributed and treated as property. When the divine religion of Islam first dawned, it foremost gave women the right to live, then rights in heritage, ownership, trade, marriage of choice, education, teaching, Jihad in the path of Allah, judiciary, issuing fatwas, giving advise, worship, giving infidels security and all the other rights of life. The Prophet (SAW) said:

عليه أسه الديغ تي الله م مځپه واسه تعليفه فأحد ن وعلمها، بهسد فأنه بذا نكته ت من) بهاني خي لى ورواه. ار مځاپ او ترلاكه ت

Those who have a girl, discipline her with the best discipline; educate her with the best of education and cover her with the blessings with which Allah has blessed him then she shall become a shield between him and fire, meaning he shall be protected from the fire of hell due to his daughter. And for those who oppress women, they have been addressed with the harshest of terms in Islamic Sharia for example the saying of Allah:

{قَتِلَتْ ذَنْبٌ بِأَيِّ سُنَّتِ الْمَوْءُودَةُ وَإِذَا}

When the female infant buried alive would be asked "For what sin was she murdered"? meaning that questions shall definitely be asked on the day of reckoning. Islam has also brought with itself some rulings for women which protect their chastity and dignity for example the hijab therefore it is stated at the end of the verse regarding covering:

{يُودَيْنَ فَلَا يُعْرَفْنَ أَنْ أَذْنَى ذَلِكَ}

That will be better, that they should be known (as free respectable women) so as not to be annoyed. Hijab is reality is a fortress of a woman which protects them from immodest, unreligious and harmful people.

In this dark period of American occupation and in complete disagreement of our Islamic and national customs and culture, women are intentionally being pushed towards ignorance; are having to face inhumane conditions under the name of democracy; are being oppressed by unconstrained militias who work under the shadow of the invaders; are being kidnapped; are made to cry day and night due to barbarism and cruelty; they burn themselves up to a stage where their screams are heard throughout the world and even though it is being maliciously used by the media, still no one bothers asking about them. Surely to Allah we belong and to him is the return.

Therefore it is an obligation upon the Mujahideen and the entire nation to protect the rights of women in these sensitive times; regard it as their duty; forward sacrifices in its defense; all means should be utilized in attaining their due Islamic rights; they should not be left alone to the cruelty and abuse of oppressors and they should protect this national honor with full determination and unshakable will.

Run Karzai Run

Islamic Emirate of Afghanistan's on-going Jihad is based on military tactics suitable to the geographic and other characteristics of the country. One tenet of our military strategy is the decrease in armed activities during winter; it is due to several reasons namely the mountainous terrain of the country. The hills of beloved Afghanistan get covered by snow during the winter season which disallows the Mujahideen the kind of movement they enjoy attacking invaders over the summer and spring seasons. Another reason is that the Emirate pays attention to the wellbeing of its Mujahid fighters. Winter is a good way of relaxing for all the brave soldiers of the Emirate who fight against Kuffar intruders during the course of the year.

The fact is that whenever the winter comes, activities decrease but with that plans for the New Year are drafted by the Mujahideen. We should understand this fact that with decrease in assault against Kuffar in winter, the Mujahideen come back to their regular enemy with more force the next year. However, the enemy considers this a 'weakness' of the Mujahideen and start bluffing and exaggerating the notional 'defeat' of the Jihad; only because of a few months' pause.

A few days ago, the spokesperson of NATO troops in Afghanistan Christian Jacobson told reporters about the so-called lack of plan by the Taliban for the current spring. He mentioned this as a weak point of the Taliban; claiming it a weakness of the Emirate forces. He also told the Reuters News reporter that indicators show Taliban have lost their ability to face the international intruders directly. However, the lies and propaganda spread by the foreign invaders were completely exposed when brave Mujahideen conducted spontaneous and surprise martyrdom operations in Kabul and many other provinces. Those attacks proved that Karzai and his puppet ministers are not safe and cannot even pacify a central part of the capital, the so-called 'Green Zone'. The world witnessed that the courageous martyrs of Islam besieged the Presidential palace and foreign embassies for more than 24 hours. The attacks were not just conducted in Kabul but key provinces such as Nangarhar, Logar and Paktia also came under the attack of the lions of Islam. They proved that however strong and cunning the enemy might be, they are able to penetrate their fences and destroy their bases. They showed the world that if you are hostile to us, your crusaders and Zionists cannot remain safe even in their restricted 'green zones'. Our Mujahideen proved that the statements by the coalition of invaders are nothing but mere propaganda.

The commander of NATO and American troops in Afghanistan, General John Allen in a statement bluffed his lies in these words: "I am proud of this moment that Afghans security forces promptly responded to the attacks, they conducted impressive and effective leadership and coordination in this operation to halt this attack". John Allen instead of being proud, should be ashamed to observe and then falsely claim such a statement. He should be ashamed that his so-called Afghan allies were not able to protect their green zone where most important embassies are located, whilst maintaining a strict protocol to safeguard that area. A handful of martyrdom-seekers invade such a high-security area and engage them for 2 days and 2 nights.

An interesting side of the story has been reported by media (UAE 24 news and France Press) that when the attacks started, Karzai was holding a meeting with his cabinet discussing the new fiscal year's budget. However, at the very time fires were shot by the Mujahideen martyrdom seekers as result of which the meeting was dispersed and Karzai escaped to a bunker somewhere in his palace. The escape of Karzai is portrayed beautiful in a Pashto poem whose wordings are as follows:

*Run Karzai Run, because Talib has come
He has an RPG in his hand, your doom has come*

The attack also disrupted a whole working day of the puppet President. He wasn't able to see any visitors over the period of the next 24 hours including a high-level foreign delegation representing an international organisation.

Kabul was in a state of emergency as reported. Officials had untied their neck ties and were rushing into their homes for safety. It was rumoured that the country was on the verge of a military coup. Changing their western-style suits, many officials put traditional Afghan clothes on fearing the Taliban might take over.

O Karzai! Why should you be angry at those of your soldiers who run away from the battlefield. Consider it, that when you with your security protocol are not safe to reside within the protected high walls of the palace, how come a foot soldier stand the wrath of Jihad on deserts and mountains.

As part of the narrative, I am hereby quoting a personal friend who works at the 'Emergency Hospital' in Shahr-e-Naw area of Kabul. He states the following:

During the time of the operation when Mujahideen were shelling from the Kabul Star Hotel, they received wounded individuals numbering 18, with two in state of coma and 2 dead. He said Afghan security forces commandos were also among the casualties.

It is worth-mentioning that Emergency Hospital is a considerably small hospital dedicated to normal accidents and fatalities received these many casualties what the situation might have been at the larger hospitals such as Wazir Akbar Khan, the ANA, Police and NDS Hospitals. Adding them all up we can assume a large number of individuals were killed and injured during this massive operation launched by our brothers. This operation in the heart of the enemy's base is a great indicator of the strength of the Mujahideen. They didn't kill these puppet soldiers of Karzai administration in the battlefield, rather, they got rid of these Kuffar near their own home, in their own time and inside their own barracks.

Results of the last Kabul operation from various sources

07 Sya'ban 1433 - 27 June 2012 10:10

There should be no doubt that the Mujahideen are very precise in their selected objectives especially in Martyrdom attacks and extraordinary efforts are exerted in making the blow effective as well as heavy in terms of enemy human toll even though the enemy portrays the situation as completely opposite. They immediately mobilize their bankrolled media, who from the start of the attack expound the enemy narrative, conduct interviews with their spokespersons, spread their lies and distortions and brushes the attack off as an ordinary incident to its viewers, readers and listeners, the target and victims of which are civilians. The recent attack on Spogmi hotel in Qargha was also reflected in the same light as the stated formulae and efforts were made to water it down however realities can never be concealed with propaganda and sooner and later everything comes to light. The infamous hotel in Qargha which came under a martyrdom strike was a place whose guests were mainly dollar worshipping hirelings and workers of western embassies as well as workers of NGOs which spread Christianity under the command and support of western countries and are similarly working hand in hand with Afghans in promoting immoralities. The Qargha lakeside was under the surveillance of Mujahideen for the past couple of months and all information needed for the operation was collected and appropriate guidelines handed over to the martyrdom seekers. On the 1st of Shaban, the operation was initiated with absolute proficiency, more details about which will be discussed below.

The organizers of this operation say that Thursday night was chosen specifically because various parties were held inside this hotel and most of its participants were foreign nationals who had the means of affording its expensive food, drinks and entertainment. Among them were workers from the embassies of Britain, Romania, France, Canada and others; personnel of NGOs which have been working in spreading Christianity in our country for the past decade as well as corrupt officials from Kabul's intelligence agency and Ministries of Interior and Foreign Affairs who have stuffed their pockets with illegal money and spend their lives in debauchee and play with the dignity, honor and pride of this nation. There were 330 such people and their associates present on the night of the attack with lots of alcohol, several prostitutes and some famous singers playing music at the request of the hotel managers.

Participants of Martyrdom operation

One of the leaders from amongst the four Mujahideen (Hayatullah, Sulaiman, Naimatullah and Kamran) who have now reached the high rank of martyrdom said via telephone: When we reached the hotel, there were 4 police standing at the front gate. We proceeded by killed them with silenced pistols then calmly made our way inside, closed the hotel's main gate and began the separation phase because we were instructed by our elders to avoid harming anyone not associated with the Kabul regime or children or any of the hotel workers. We did as asked to the best of our ability by separating the civilians, assembling them in rooms and instructing them to not leave there rooms during the fighting. On the other hand, all foreign nationals, uniformed hirelings and other puppets of ministries were killed after checking their documentation. After that we started engaging the outside enemy.

Witnesses and regional security officials

The below information is gathered from a worker of the said hotel, a guest businessman and the commander of police check posts. All three of these men state that they have witnessed things which were completely ignored in televisions and radios. They emphasize that foreigners, most of whom were workers of missionary NGOs and western embassies, visited this hotel every night and plenty had arrived especially on this night. The attack happened suddenly and we stood there shocked. We saw that the Mujahid inside were looking for specific targets and were instructing ordinary people to enter rooms and stay there until the fighting is over. Then the fighting began and we do not know what happened until the morning except that the halls were packed with the bodies of dead people. A police commander said on condition of anonymity that more than a hundred people were killed here however we have been told to stay mute about the casualties. He further said the second floor has still not been cleared (second day) while ambulances were making consecutive trips till nearly dusk time. The said person adds that after the attack, the area was cordoned off by foreign troops until dusk time and even the minister of interior was not allowed near the site. The foreign forces evacuated the dead foreign nationals from the scene then allowed the internal intelligence agency to participate in the clear up however the number of killed, most of whom were foreigners is still not known but the said person says that he believes the number reaches into hundreds. The commander who does not want to be named adds that he has never seen such destruction while all the workers near Qargha lakeside have been told to not talk to any news outlets about the casualties.

Commander of foreign forces

The commander of foreign forces, John Allen, claimed in a very harsh manner that this attack was the work of 'Haqqani Network' and of Pakistan. One thing that is common knowledge is that whenever the foreigners are struck with a heavy blow, they always start making such ridiculous claims. The fact is that this operation was carried out by 4 Afghan warriors, dressed in Afghan clothing and the weapons used were those which have been utilized in our country for the past thirty years and which are known to every young and old Afghan by its name. Mujahideen also reached their target by road and used means which are present with Afghans then why is there a need to place the blame another neighboring country? Such laughable claims are only meant to try and blemish the name of Mujahideen in order to diminish the courage and great deeds of the Afghan Mujahideen (Taliban). However the Afghans have not only just started fighting but we have been at it for the past three decades and the Mujahideen have always had to face such ridiculous claims which strive to portray them in a negative light. We would have needed the help of neighbors in case we had only just started our struggle or that we were not familiar with weapons or that we had spent all our lives in immorality and handouts. Only in such a case would we have needed help from other nations in organizing and executing operations. The matter of the fact is that Afghan Mujahideen have set the epitome in warfare and are themselves masters in matters of war. This is the third time that we are defeating the most advanced and highly trained forces of the world so is it plausible that the Mujahideen would need any help in their operations? The matter is very clear; John Allen is only trying to deceive the American public with such statements, somehow control its failures, play down the demonstration of astuteness and valor of Mujahideen and especially to give patience to the defeated Kabul regime and conjure reasons for it to keep on fighting? Why, because it is Pakistan which is interfering!!!

Western media

The western media was also made befuddled observations and displayed that the Taliban is still a strong force in Afghanistan and demonstrated that they can strike anywhere they want, can take weapons with them anywhere they want and the garrison city of Kabul is still under threat from a potent Taliban force.

A few observations can clearly be made from the analysis of the mentioned arguments:

1. That the Taliban want to continue their Jihad and protect their religion and sanctities and are prepared to present every kind of sacrifice to defend its nation.
2. That Taliban don't rely on propaganda but are able to, with the help of Allah, do anything they want and strike the enemy anywhere they want.
3. That the Taliban are forging ahead with their Jihad with the Allah's support and divine help as well as the unrestrained backing of its nation. It is with the immense support and sacrifice of its people with its Mujahid brothers that such attacks are carried out inside the garrison city of Kabul. They cover them and their secrets with their head shrouds up until the launch of the operation.
4. As for the caused casualties, they are completely covered up by the invaders, Kabul's stooge regime and its surrogate media and only a tiny fraction is released while every effort is made to deflate the effectiveness of such strikes. Our countrymen are witness how the huge Sahra Bagh incident was covered up and then it was later testified to by an American general in America. Even the Kabul administration has adopted this formula by always denying their casualties even though Karzai made a rare public statement a couple of days earlier and said that between 20 and 25 of its security personnel are killed on a daily basis.
5. That there are people inside the security apparatus of the Kabul administration who share intelligence with Mujahideen and with its help, such large operation take place.
6. That the spring Al-Farooq operation has completely devastated the enemy and it is not far that they shall face an ignominious defeat and leave.
7. The claims of NATO about its war (occupation) progress were proved wrong.
8. It is made clear that no matter how strong falsehood is, it shall face defeat and the truth shall be triumphant.
9. It is made clear that despite the Afghans being weak, they are better than any other nation in defending its religion, are a freedom and independence loving nation and are staunch protectors of their beliefs.
10. Now that the invaders have lost, there is only one way left for them and that is to accept the heroism of the Afghan nation and withdraw its evil forces under any pretext of their liking. If such a move is not made then the Afghan Muslim and furious nation will deliver even more such blows which will neither leave you your head or your dignity.

O ALLAH, MAKE THEM AND THEIR WEAPONRY A BOOTY FOR THE MUJAHIDEEN
YOU ARE OUR SUPPORT AND YOU ARE OUR ONLY VICTOR; BY YOUR ORDER WE ATTACK;
BY YOUR ORDER WE RETREAT AND BY YOUR ORDER WE FIGHT
O ALLAH, THE SKY IS YOURS; THE EARTH IS YOURS; THE SEA IS YOURS,
SO WHATEVER FORCES THEY HAVE IN THE SKY, DROP THEM.
DESTROY ALL THEIR FORCES IN EARTH AND SINK ALL THEIR FORCES IN SEA
O ALLAH, DEAL WITH THEM FOR VERILY THEY CAN NEVER DISABLE YOU
O ALLAH, RETALIATE UPON THEM, AFFLICT THEM LIKE YOU DID TO PHARAOH AND HIS NATION
O ALLAH DEFEAT THEM, DESTROY THEM O THE ALL-STRONG, THE ALL-MIGHTY
ALLAHU AKBAR
"HONOR, POWER AND GLORY BELONG TO ALLAH,
His MESSENGER AND THE BELIEVERS,
BUT THE HYPOCRITES KNOW NOT"
